WHO WE ARE
Fresenius Medical Care is the world’s leading provider of dialysis products and services. We care for people with chronic kidney failure, of whom around 3.5 million worldwide depend on dialysis treatment. We provide health care products and services in around 150 countries worldwide.

CEO AND CHAIRMAN
Rice Powell

VISION
Creating a future worth living. For patients. Worldwide. Every day. This vision guides us in our efforts to give our patients around the world a better life by offering them high-quality products as well as innovative technologies and treatment concepts.

MISSION
We provide the best possible care. Sustainably in diverse health care systems. For a growing number of patients around the world.

STRATEGY
Creating the future of health care for chronically and critically ill patients across the Renal Care Continuum by leveraging our core competencies. Offering sustainable solutions with innovative products and services of the highest quality at reliable costs.

FINANCIAL FIGURES 2019
Revenue € 17.48 BN
