Fresenius Medical Care publishes 2021 Global Annual Medical Report: Embracing the Complexity of Global Healthcare

Fresenius Medical Care, the world's leading provider of products and services for individuals with renal diseases, announced publication of its 2021 Global Annual Medical Report. Titled "Embracing the Complexity of Global Healthcare," the report focuses on addressing healthcare complexities by driving meaningful advances in kidney disease care.

"The volume of thought leadership, ideas and expertise in the report demonstrates our company's continued leadership in kidney care, our innovation through lifelong learning and our commitment to our patient-centered mission," said Franklin W. Maddux, MD, Global Chief Medical Officer of Fresenius Medical Care.

The 2021 Global Annual Medical Report comprises 25 chapters by more than 40 authors from across the company. Six different sections each focus on a core theme of Fresenius Medical Care's Clinical & Quality Agenda. An additional COVID-19 section is dedicated to the company's ongoing efforts to address the pandemic.

The core themes are:

- Cardiovascular Health
- Precision Medicine
- Communication and Medical Education
- Global Research

- Patient-Centered Care
- Innovation and Transformation

The 2021 Global Annual Medical Report is published by the Global Medical Office of Fresenius Medical Care. The full report is now available online at:
