

SALSA®: compact and functional treatment chair

LiKAMED product portfolio

Introduction

LIKAMED

LiKAMED shares more than 25 years of a successful partnership and expertise with Fresenius Medical Care in the field of medical patient chairs and bed chairs. It is one of the leading providers of dialysis chairs in Europe and abroad. Both companies share a common vision of offering innovative products which improve the patient's quality of life. Products from LiKAMED aim to fulfill the highest standards in terms of patient comfort, ergonomics, functionality and user safety.

The medical patient chairs and bed chairs from LiKAMED have a strong international position in our NephroCare and customer clinics and are fully integrated into our Fresenius Medical Care logistics and technical service processes. LiKAMED products, which have an associated technical service, allow Fresenius Medical Care to offer a better range of products and services from one single source, therefore strengthening our relationship with our customers, providing them with solutions and creating value.

LiKAMED company certifications

LiKAMED products are manufactured in Germany, tested according to applicable norms and additionally carry the TÜV product test mark. Through years of experience and rigorous quality controls, we stand together for highest quality made in Germany.

LiKAMED is certified

- QM certification in accordance with ISO 9001
- QM certification in accordance with EN ISO 13485
- Certified environmental management system in accordance with EN ISO 14001

Our partner: LiKAMED GmbH

For the past 40 years, LiKAMED has been highly successful in the medical sector. The formula for success: design and quality. The idea: using this formula and many years of experience to develop innovative products for practical and convenient use. The claim: all products are developed, tested, manufactured and assembled by LiKAMED in-house specialists and are certified by the applicable ISO management systems. The promise: made by LiKAMED – made in Germany – focussed on design and quality.

SALSA® A1 Compact chair for all areas

One motor to move the one-piece frame (Art. no. H260901)

Flexibility with seat position, comfort and shock position

Stepless motorised adjustment from seat- and comfort position to shock position

Illustrations show colour and equipment variants.

SALSA® A1: compact and functional for patients and personnel

This model offers value-for-money in terms of comfort, and above all infinitely variable motorised adjustment from the seat position to the comfort and shock positions. The key on the hand control unit activates preselected basic settings, allowing users to select the desired position intuitively and instantly. Patient comfort, ergonomics and safety are also priorities. There are easily cleaned, soft full-foam armrests, which can be rotated and tilted for ease of access and positioning.

Features

Armrests are rotatable and can fold upwards

Upholstery (two-layer foam)

Equipotential bonding cable

Hand switch with manual locking function

- One motor to move the one-piece frame
- Grey full foam armrests right and left
- Armrests are rotatable and can fold upwards
- Individually locking casters Ø 7.5 cm

- Upholstery (two-layer foam)
- Power rating 100-240 V AC, 50/60 Hz
- EU power plug

Neck roll with Fresenius Medical Care branding

Manually adjustable footrest

SALSA® A3 Treatment chair with a wide range of functions

Three motors for the adjustment of the back, foot and seat parts (Art. no. H260921)

A3 hand switch, with buttons for basic settings (seat, shock and Trendelenburg positions) and magnetic locking function

SALSA® A3: a modern treatment chair for demanding environments

A chair that's good for patients: providing support on comfortable, soft upholstery, the SALSA A3 brings patients to any required position in stepless motion. Powered by three motors, the chair moves from the sitting position to the comfort and bed positions. Thanks to such a level of patient comfort, even treatments lasting several hours can be undertaken in a relaxed manner. In case of emergency, the chair moves the patient into the shock position – and the Trendelenburg position if necessary – at the touch of a button. The soft, pre-shaped foam armrests which are rotatable, tiltable and can be folded upwards, allow good access to the vene and contribute to patients' well-being.

Features

Armrests are rotatable and can fold upwards

Upholstery (two-layer foam)

Equipotential bonding cable

- Three motors for adjustment of the back, foot and seat parts
- Grey, full foam (foamed) armrests right and left
- Armrests are rotatable and can fold upwards
- Individually locking casters Ø 7.5 cm
- Upholstery (two-layer foam)
- Power rating 100-240 V AC, 50/60 Hz
- EU power plug

Infusion rod holder right and left rotatable*

Infusion rod, including bottle holder

Upholstery (two-layer foam) with special, soft back and seat parts

Manually adjustable footrest

SALSA® A4 Perfect combination of functionality and quality

Four motors for the adjustment of the back, foot and seat parts and height adjustment (Art. no. H260941)

A4 hand switch, with buttons for basic settings (seat, shock and Trendelenburg positions) and magnetic locking function

Illustrations show colour and equipment variants.

SALSA® A4: the perfect chair for the highest functional requirements

The SALSA A4 is the premium model in the SALSA range and meets the patient when getting in the chair with its stepless motorised height adjustment, making it easier for both the patient and nurses. SALSA chairs are light and stable for loads up to 200 kg, while providing high comfort. In stepless motion, the chair moves from sitting position to the comfort and bed positions. Naturally, the SALSA A4 has all the features of the other models in the range, including soft, pre-shaped foam armrests which are rotatable, tiltable and can be folded upwards and has a shock button to move the chair to the shock or Trendelenburg positions. The SALSA A4 is designed for made-to-measure comfort and safety.

Features

Armrests are rotatable and can fold upwards

Upholstery (two-layer foam)

Stepless motorised height adjustment

Equipotential bonding cable

- Four motors for adjustment of back-, foot- and seat part and height adjustment
- Grey full foam (foamed) armrests right and left
- Armrests are rotatable and can fold upwards
- Individually locking casters Ø 7.5 cm
- Upholstery (two-layer foam)
- Power rating 100-240 V AC, 50/60 Hz
- EU power plug

Infusion rod holder right and left rotatable*

Infusion rod incl. bottle holder

Upholstery (two-layer foam) with special, soft back and seat parts

Manually adjustable footrest

High flexibility

Adjustment and positioning options

Set the chair to any desired position. The SALSA A3, which is configured to meet your precise requirements, comes with three motors or you can select the SALSA A4 with four motors for additional height adjustment.

Flexibility with seat, comfort and bed positions

Stepless adjustable positioning of the back, seat and foot parts with three separate motors.

SALSA A4 comes with height adjustment

For older patients in particular, it is important to be able to get into or out of the chair easily, which is why the additional motor on the SALSA A4 for stepless height adjustment is so important. This also allows the chair to be moved into a specific working position, which is a great benefit for the nursing personnel.

Shock or Trendelenburg positions

In case of an emergency, you can move your patient directly to the shock position or further to the Trendelenburg position with the emergency button.

Shock position

Trendelenburg position

Ease of operation

All adjustments can be made quickly and easily with the intuitively designed hand switch. The symbols on the buttons are three-dimensional for operation by visually impaired people. The appropriate handset is supplied with the respective model based on the included functions.

Comfort buttons

One of the most popular functions of LiKAMED chairs: after setting the optimal seat position, the patient can change the position quickly and easily with only one pair of buttons without changing the angles of the seat part, back part and foot part.

Special buttons

The coloured markings ensure that the most important functions are easily visible. Quick adjustment to the shock or Trendelenburg positions is particularly important in case of an emergency.

Magnetic key

The hand switch can be locked and unlocked with the magnetic key.

Greater comfort for your patients

Soft upholstery

The optional, soft cushions in the upholstery has a particularly soft-top layer (optional for SALSA A3/A4).

(not suitable for medical environments except for dialysis and oncology)

Upholstery wedge

between the seat part and back part (optional for SALSA A3/A4).

Rest your head

A relaxation pillow or a neck roll is recommended for optimal comfort in the chair.

Relax pillow with Fresenius Medical Care branding in the upholstery colour for a relaxed head position.

Neck roll with Fresenius Medical Care branding for support in the neck region. In the upholstery colour.

Footrests

The footrest supports a relaxed seat position and is recommended for specific applications, such as dialysis, in order to give patients the option of pressing their feet against the footrest to relieve cramps.

Manually adjustable footrest

With standard grey plastic footrest inlay. Nursing personnel can adjust the footrest with the setting wheel on the side.

Padded imitation leather footrest inlay

A padded version with easy-care imitation leather cover is available for greater comfort and in colours to match your general colour scheme.

Armrest pads

The range of different pads for armrests makes it easy to make the right choice for your purpose. The full foam armrest pads are comfortable and particularly easy to clean. The range of optional foamed armrest pads with imitation leather covers is particularly broad. Arms are comfortably supported by the slightly concave shape and the integrated holder provides a specific, easily accessible place for the hand switch.

Full foam armrests incl. hand switch holder, right and left

Low, wedge-shaped foam armrests incl. hand switch holder, right and left

Wedge-shaped foam armrests incl. hand switch holder, right and left

Foam armrests covered with imitation leather incl. hand switch holder, right and left

Hygiene and cleaning

Upholstery protection

The robust and easy to clean transparent protective covers protect your chair, even under heavy use with shoes. The hand switch holder on the armrests remains accessible, even with protective covers.

Transparent protective cover for the foot part

Transparent protective cover for the footrest

Transparent protective cover for full foam and foam armrest pads

Further options for SALSA® chairs

Tiltable armrests

Grey hand switch holder made of imitation leather with velcro for full foam (foamed) armrest

Anti-decubitus gel seat cushion with PU cover in grey

Lumbar support (in upholstery colour)

Paper roll holder

- Other power plugs available upon request*
- Neck roll and relax pillow without
 Fresenius Medical Care embossing

Standard colours
